**Identifying Corrected Reports and Data Sets** (updated 4-13-21)

**Updated Reports Index (v1.1) web-based API that shows published reports and corrected reports. These are the only URL's that can be run via a browser for output. This is fixed text display output. There is no JSON file provided.  These are examples and can be modified to use with other time frames.**

- This example shows all current day Published Reports.
  https://marsapi.ams.usda.gov//services/v1.1/public/listPublishedReports

- This example shows the most current date of all Published Reports ever released on MMN:
  https://marsapi.ams.usda.gov//services/v1.1/public/listPublishedReports/all

- This example shows the last Published Reports for the last 100 days. Users may change the day to any number.   https://marsapi.ams.usda.gov//services/v1.1/public/listPublishedReports/100

- This example shows all Corrected Reports:
  https://marsapi.ams.usda.gov/services/v1.1/public/listCorrectedReports/all

- This example provides all Corrected Reports for the last 100 days. Users may change the day to any number.  https://marsapi.ams.usda.gov/services/v1.1/public/listCorrectedReports/100

**Updates have been done to the MMN API. A new version (v1.2) offers the following features for getting corrections.  These are not web API links and will not work in a web browser.  These are examples and will need to be modified to use for other reports and data sets.**

- The following URL will provide Correction details only in last 3 business days (this one is unique in that the report must have corrections in the last 3 days to provide data). If you attempt to pull data and you don't get data, the slug ID will have to be changed to a report that does have a correction which can be identified with the report list pull above).
  https://marsapi.ams.usda.gov/services/v1.2/reports/2194/Details?correctionsOnly=true

- The following URL will provide correction details since a provided date. The below example uses 3/1/2020 for Slug ID 2194.
  https://marsapi.ams.usda.gov/services/v1.2/reports/2194/Details?correctionsOnly=true&anyChangesSince=2020/03/01

- The following URL provides report detail data published in last X days for a specific slug (example used is 2194) going back 3 days. The "lastDays" attribute support any number.
  https://marsapi.ams.usda.gov/services/v1.2/reports/2194/Details?lastDays=3

- The following URL provides report detail data for the latest release of specific report (example used is 2194). The "lastReports" attribute supports any number.
  https://marsapi.ams.usda.gov/services/v1.2/reports/2194/Details?lastReports=1
